Re: PURA ULTRAVIOLET DISINFECTION UVSS DEMO UNIT

WaterGroup is please to introduce PURA Ultraviolet disinfection UVSS demo* unit. This demo unit can be used by the customer as a selling tool during sales presentations or trade shows. This demo unit can also be installed at the reception area of the dealership for product demonstration purposes.

The UVSS demo unit incorporates a cutaway of PURA UVSS-6 model. The demo unit uses a non-UV blue bulb. The unit can be mounted on the wall and plugs to a 120V power outlet.

The item number of the demo unit is #8771.

For more information, please contact our customer service department.

PURA Stainless Steel Ultraviolet Water Disinfection System

Advanced Ultraviolet Water Disinfection System.
Disinfection of water using ultraviolet light is a chemical free way of disinfecting microorganisms in water.

Installation of the system is straight forward and simple. Maintenance includes changing the lamp once a year and cleaning the quartz sleeve periodically.

UVSS Models

- LED Display
- Lamp Failure Visual and Audible Alarm
- Lamp Change Reminder
- Countdown Lamp Timer
- Axial Flow Design (In the bottom and out the side)
- 115V/60Hz North American 3-Prong Grounded Plug
- Available in 6, 10 and 15 GPM Models

UVSS-M Models

The PURA UVSS-M models are constructed with all the features of the UVSS models plus the following:

- UV Sensor to Monitor the Disinfection Dosage
- Solenoid Output shuts down water flow using optional solenoid valve upon Lamp Failure, Power Failure or Low UV Intensity Alarm
